

## **Deduct-A-Buck**

**If you like the difference, then make a difference...**

**Every credit union member has his or her own reason for belonging: ties to a workplace, the convenience of direct deposit, better rates on fees and saving rates or the friendly staff.**

**Banks are always thinking about the fact that you, and millions of other consumers, belong to credit unions. Banks wish that there were no credit unions, then banks could charge whatever they want for services and there would be no competition to force them to keep fees low.**

**Banks are always trying to change the laws that enable credit unions to serve their communities and to serve you. Banks, although they have 97% of the market, have brought numerous law suits claiming unfair competition from credit unions.**

**Credit unions have been successful in fending off these attacks so far. But Bankers have deep pockets and their political spending in Albany and Washington, D.C. has a profound effect on credit unions.**

**Without the ability to counter these lobbying efforts by banks, the future of credit unions would be in doubt. We must vote in only credit union friendly candidates! This is done through an important political resource known as the Credit Union Political Action Committee. (CUPAC)**

**You and every member of this and other credit unions can make a very big difference with a very small contribution through the Deduct-A-Buck program at your credit union.**

**Sign up online or at CCSFCU the next time you come in. Help make your voice heard where it counts... in Congress!**

## **Clarence Community & Schools Federal Credit Union Deduct-A-Buck Enrollment Form**
